efficient solutions, naturally

Natu-B4®

Synergistic action between
several active principles

Using the most advanced nutrigenomics and transcriptomics methodologies, **Natu-B4®** is one of the first herbal products to have its mode of action scientifically proven.

Benefits

After more than 100 research works with **Natu-B4®**, in different parts of the world, with most of the animal species of zootechnical interest (poultry, pigs, ruminants, rabbits, aquatic animals, and pets), different research centers and universities and many field trials in real commercial situation with a very expressive number of animals, we already know that the **Natu-B4®** is much

more than a simple and natural source of choline.

Natu-B4® is totally friendly for inclusion in premixes and any type of balanced feed, without adverse reactions with other ingredients present and also resists all feed production processes such as pelletizing and extrusion.
